## CORPORATE PROFILE

## ABOUT US

## HAKKIMIZDA

SEKLIFT Machine is a Türkiye-based manufacturer of vertical access and lifting solutions, operating since 1999. Based in Adana, the company develops and manufactures construction hoists, industrial and mining elevators, mast-climbing work platforms, suspended platforms, and façade access systems. SEKLIFT combines engineering experience, safety-focused design, and flexible manufacturing to provide reliable solutions for construction and industrial applications. With products supplied to both domestic and international markets, the company continues to expand its global presence through quality manufacturing, technical expertise, and customer-focused project solutions.

# Personnel & Material Hoist

Yük ve  
Personel Asansörü

Construction hoist for up to 2,500 kg or 24 persons, with 200 m standard height and three speed options.

2.500 kg veya 24 kişiye kadar taşıma; 200 m standart yükseklik ve üç hız seçeneği sunan inşaat asansörü.

## HIGH-CAPACITY SITE TRANSPORT.

Yüksek kapasiteli şantiye taşımacılığı.
